Monitoring and Evaluation

Marie explained that Richard Taylor completes a quarterly report. A key figure is club membership for juniors and seniors. A list was distributed of clubs that have provide club membership data. Chairs are asked to encourage all clubs in development groups to provide regular membership data updates. In April this will resolve itself to a degree through athletics services and club affiliation but U11's data will still be required.

Community Clubs Data:- This is the other major key figure. Discussion took place regarding monitoring these as not all fall under the community coach data. It was agreed for all groups to forward Richard the community club contacts so that he can ask them for data.

County Squads

Letters have gone out to individual athletes through clubs. We are aware of a clash with the WY XC League for the next event. Please encourage and support attendance for the remainder of the sessions.

Coach Education

Discussion regarding the planned calendar of coach education took place. Spenborough was suggested as host for the next Level 2 course.

Local Development Groups

Funding is available for development work and coach education. This is currently held by WYS. Each group needs to complete mini development plans. Richard Taylor to do / assist with this.
